

AVOID SPRING ILLS

Purify and Build Up the Blood with
Hood's Sarsaparilla

In the spring your blood needs cleansing and enriching. You feel poorly, and there is more or less eruption on your face and body. Your appetite is not good, your sleep is broken, and you are tired all the time.

You need Hood's Sarsaparilla. It is the one safe and effective tonic that has stood the test of forty years. It makes the pure red blood that will make you feel better, look better, eat and sleep better. It is the old standard tried and true all-the-year-round medicine for the blood and the whole system.

Ask any druggist for Hood's Sarsaparilla, and insist on having it. Nothing else acts like it, for nothing else has the same formula or ingredients, and so there is no real substitute. Get it today.—Adv.

DOUBTS VALIDITY OF THE SENATE'S ENLISTMENT PLAN

Judge Advocate General More Favors
to House Bill Provision for
Drafting Militia in War.

Washington, D. C., April 12.—In a special report to Congress the judge advocate general of the army yesterday expressed "grave doubts" as to the validity of the dual enlistment system proposed in the Senate army bill. The House bill provision, however, for drafting National Guardsmen into the regular army in war time, the judge advocate general held would obviate some of the legal difficulties which would confront having a force under enlistment to the states and the federal government at the same time.

Secretary Baker transmitted the judge advocate's views as not being those of the war department, adding that he had not had opportunity to study the subject himself.

CANADA WITHIN HER RIGHTS.

No Action as Result of American Letters
Being Opened.

Washington, D. C., April 12.—Several protests have been made to the postoffice department recently by postal authorities at offices along the Canadian border that American letters have been opened in the Dominion and passed upon by a censor. No action has been taken and it was understood yesterday to be the feeling of authorities here that mail in Canada is subject to such regulations as the Canadian government may make.

The Cause of Anæmia

It is universally known that iron is a very important element of the blood, and lack of it is the direct cause of run-down conditions and anæmia. It may interest our readers to know that Floyd G. Russell, Prop., of the Red Cross Pharmacy of this town, has in Vinol a reliable, constitutional remedy for such conditions. Vinol supplies iron to the blood in its most soluble state, then there's the nourishing properties of beef peptone and the medicinal curative extractives of fresh cod livers, without oil, all dissolved in a pure native tonic wine. That's what makes Vinol so successful in overcoming run-down and anæmic conditions.—Adv.

DUTY TO STAY ON SUGAR

Passage of the Tariff Bill
by the Senate Is
Assured

RIVERS AND HARBORS PASSES HOUSE

Senate Asks for Findings of
Standard Investigation
into Gasoline

Washington, April 12.—Debate on the sugar tariff bill was continued in the Senate yesterday with its passage virtually assured. A final vote was to be taken before adjournment under an agreement reached last Friday.

The bill is a substitute for the House resolution repealing the free sugar clause of the provision until May 1, 1920. But for Senator Weeks' desire to propose an amendment which had not been perfected at the time the measure would have been passed late Monday. His proposal was ready to be offered yesterday.

The Senate thus far has withstood all attempts at amendment, including Senator Lodge's proposal to include a tariff on coal and tar dyes. This was voted down by a vote of 41 to 25. Senator Lodge, in offering his amendment, declared he would submit it to a vote without argument, but a lively debate followed. Senator Simmons, on learning that the duties proposed were similar to those in the Hill bill pending in the House, declared they would approximate 75 per cent and urged that the amendment be defeated.

Senator Underwood, author of the present tariff law, explained that the 30 per cent duty now imposed on dyestuffs had existed since enactment of the Dingley law by acquiescence of dye manufacturers. Textile manufacturers, chief users of the dyes, had urged that the duty be lowered instead of increased.

Senator Smoot and Senator Brandegee urged the passage of the amendment, the former asserting that the labor cost of German manufactured dyes was not more than one-fourth the cost in the United States. The Germans, also, he said, had many advanced methods by which they could make dyes at much less expense.

AGAIN ON THE TRAIL OF STANDARD OIL

Story That Dissolution Decree Is Failure,
Leads Senate to Ask Attorney General for Report of Investigation.

Washington, April 12.—Without debate the Senate yesterday adopted a resolution by Senator Kenyon, Republican, directing the attorney general if not incompatible with public interest to submit to the Senate all reports of investigations made by the department into the

LESS MEAT IF BACK AND KIDNEYS HURT

Take a Glass of Salts to Flush Kidneys
if Bladder Bothers
You

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine, which is no longer irritating, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Adv.

Standard Oil company since the supreme court decree of dissolution against that company and particularly any investigation into gasoline prices.

Senator Kenyon had read to the Senate resolutions adopted by the Western Oil Jobbers' association at St. Louis, petitioning Congress to supplement the Sherman law to make effective the decree of dissolution against the Standard Oil company and declaring it to be the sense of the association that the dissolution decree was a failure.

A letter to Senator Kenyon from R. S. Welch, counsel for the association, declared independent oil jobbers of the Middle West would be driven out of business and faced financial ruin unless an end was brought to discriminatory prices of gasoline dictated by the Standard Oil company.

On April 9, the letter said, the gasoline price to the consumer by the Standard Oil company in New York was 26 cents a gallon; Chicago, Standard Oil company of Indiana, 18½ cents; Ohio, two cents higher than average Middle West prices, and Pittsburgh 24 cents.

FAVORABLE REPORT ON IMMIGRATION BILL

Committee Retains Literacy Test and
All But One of House Provisions.

Washington, April 12.—The Senate immigration committee yesterday ordered a favorable report on the House immigration bill retaining the literacy test. The committee accepted all House provisions except that to require matrons to travel in the steerage of immigrant vessels bound for the United States.

COMB SAGE TEA IN FADED OR GRAY HAIR

If Mixed with Sulphur It Darkens So
Naturally Nobody Can
Tell

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv.

GIRLS! THICKEN AND BEAUTIFY YOUR HAIR AND STOP DANDRUFF

Try This! Your Hair Gets Wavy,
Glossy and Abundant
at Once

To be possessed of a head of heavy beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine.

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25-cent bottle of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre, and try as you will you cannot find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.—Adv.

IN BOSTON MARKETS.

Butter Prices Tending Downward—Egg Market Firm.

Boston, April 12.—The local butter market is dull and barely steady, with the signs indicating that the next change in prices will be downward. There is all the fresh butter that is wanted at the prices it commands and although receipts are still moderate, few dealers find it at all easy to effect a clearance. Withdrawals from cold storage last week were considerably smaller than they have been recently, which would indicate that current prices were affecting consumption. Butter cannot be expected to move rapidly at current quotations, and with any material increase in the supply of fresh butter, prices are likely to tumble; one guess is as good as another as to when the supply of fresh goods will increase, but such weather as now prevails is favorable to production.

The cheese market is beginning to waver and lower prices seem close at hand; there is a pretty generous stock of old cheese for the time of the year, and the demand is anything but large, for there is not sufficient steamer space to permit of export business and current prices keep down local wants to a minimum. New cheese can be had more cheaply than old stock for export, and it would seem as though buyers would have a good deal to say on the prices at which the old cheese will be cleaned up. The egg market is firm; receipts are large, but a good many are going into the coolers or are held off the market on shippers' orders, and supplies on the open market are not too large for current needs.

Jobbing quotations:
Butter—Fancy northern creamery tubs 37½@38c, boxes 38½@39c, prints 39@39½c, fancy western creamery 37@37½c, fancy storage creamery, northern 36@36½c, fancy western 35@35½c, good to choice creamery 34@35c.
Cheese—New York twins, fancy 19@19½c, fair to good 18@18½c, Young America 21@22c.
Eggs—Fancy henner 27@28c, choice eastern 26@26½c, fresh western extras 24@25c, prime firsts 23½@24c, firsts 23@23½c.

HEAVY BEEF CATTLE SCARCE.

Prices Sharply Advanced at Brighton Stockyards.

Brighton, Mass., April 12.—Heavy beef stock was in short supply at the Brighton stockyards yesterday, and prices advanced sharply. Quotations on lighter stock were also carried upwards, cows and bulls feeling the stronger demand. Calves were easier and hogs unchanged.

Arrivals for the day were 22 cars from the Boston and Maine railroad and six cars from the Boston & Albany. During the week arrivals were eight cars from the Boston & Maine, nine cars from the Boston & Albany, 15 cars of cattle from the West and six cars of livestock from New York state. Arrivals at Watertown for the day were 19 cars, including all kinds of livestock. Total arrivals for the week at both Brighton and Watertown were 85 cars against 86 cars for the previous week.

Best offerings of heavy beef cattle sold at yesterday, whereas a week ago the same grade went slowly at 8c. This was the high mark of the day, the range for tops being 8½@9c, good cattle at 7½@8c and light cattle at 7@7½c.

Cows were also firmer, fancy beef cows and heifers selling as high as 7½c. Tops ranged from 6½@7½c, with good cows at 6@6½c, ordinary cows at 5@5½c, and canners at 4@4½c.

Best bulls sold at 6½c, the range for tops being 6@6½c, with average stock at 5@5½c, and bologna at 4½@5c.

Calves continued in heavy receipt and prices were somewhat lower, as usual at this season. For even fancy lots 9½c was about the top. Good lots sold at 8@8½c, with fancy at 9@9½c and fair lots at 7@7½c. Grassers and drinkers brought 5@6½c.

While dressed hogs were quoted at the same figure as a week ago, a somewhat firmer tone was noted in live hogs. Best lots sold at 9½@10½c, with rough lots at 9½@9½c.

Prices were entirely nominal on sheep and lambs, owing to the fact that no shipments came in yesterday. Best lambs would easily bring 10 cents if available.

Milch cows were steady in price, but the demand was quiet. Ordinary milkers sold as low as \$35@40, with good milkers at \$60@80 and fancy milkers at \$100 and upward.

Pleas Not Guilty.

Boston, April 12.—Irving E. Olmstead of Newton, a wood salesman, yesterday pleaded not guilty to an indictment charging first degree murder in connection with the shooting of Mrs. Violet C. Moore, a manufacturer, in this city on March 11.

REGAL Low Shoes

If you want to see something nice, come in and ask to see our new Regal styles for spring and summer.

You'll like the styles, and if you wear them you'll see other things to like that are more substantial and just style.

Try it this time—if you do, you'll be a Regal roofer for keeps. \$4.00, \$4.50 and \$5.00.

SPORTING NOTES.

Harvard and Yale have decided against letting their football warriors after taking some films of last season's games and noting the difficulty with which the letters could be discerned in the pictures.

Jess Willard is planning a world tour when the war ceases. He wants to see the stricken countries and figures that he can clean up enough on the trip to put him on easy street for the rest of his days. He plans to invest in farm lands.

Albert E. Kennedy, 17 years old, of 204th street, New York City, is probably the first baseball victim of the season. Kennedy was waiting his turn at bat in a game at the Bedford park ball field, when he was struck by a thrown ball, which fractured his skull. He died the same evening in Fordham hospital.

Tex Richard, over two weeks after the Willard-Moran bout, is still figuring his books. Such little things as the state's collecting a tax on more than 4,000 complimentary tickets are a bit disturbing. This has never been done before.

Percy Haughton has signed a year's contract to coach the Harvard football team.

Boxing will be seen at the Boston hippodrome for the last time this week—the last time this season, if not forever.

Mike Sweeney, Yale's new athletic adviser, says the reorganization of Yale sports will be an all-year job.

Francis Ouimet, the golf champion, is associated with J. H. Sullivan, Jr., in a new sporting goods store that opened Monday in Bromfield street in Boston.

Outfielder Allison of the Chicago Nationals has been sold to the New Orleans club of the Southern association.

Herbert Vollmer set a world's record when he swam 220 yards in two minutes, 23 2-5 seconds in New York Monday night.

The Red Sox won Thursday's game with the Boston college nine by a 9 to 1 score. Pennock, Bader, Cady, and Thomas made up the Red Sox battery.

The present rowing system at Harvard, in which much authority is vested in the captain, was upheld at a meeting of the athletic committee Tuesday night.

The Phillies have turned over "Bud" Weiser, an outfielder, to the New London club.

All the Athletics promise is better baseball than in 1915.

Bill Killifer of the Phillies and Jack Adams, a new one, will not be ready to do any catching for some time.

Connie Mack picks the Phillies for the pennant. He has seen them play and thinks they are stronger than last year.

The Springfield Republican has the following to say: "Witt, a 19-year-old boy, is said to be a coming star shortstop. Connie Mack would like to keep him on the bench for a year; but he is forced to press the boy into immediate service."

Pick, Connie Mack's third baseman, is said to be the best man at that base since Baker left the team.

Clarence Walker doesn't want the Boston fans to consider him as good as Tristan Speaker. Modest, isn't he?

A silver cup given Charles "Chick" Evans as runner-up in a western golf championship match, was one of four trophies stolen Sunday night from the home of his brother, Elliott H. Evans, of Chicago.

Work has started on a new \$200,000 gymnasium for the University of Virginia.

In the first lacrosse match of the season on Tuesday, Swathmore went down to defeat before the clever Cornell team, 9 to 2.

Charlie White, the versatile Chicago boxer, is losing prestige. In a recent fight with Leonard, he was overshadowed and in no match lately has he been

there with his famed left hook which flattened so many aspirants last season.

Carrigan has received word from Del Gainer, first baseman, saying that he will show up in Boston in a week or two, just as soon as the sickness in his family is over.

FOUND NO CONSPIRACY.

To Destroy Munitions Plants in New England.

Boston, April 11.—The federal grand jury, which for several weeks has been investigating a reported conspiracy to destroy New England plants engaged in the manufacture of war munitions, yesterday reported it had found no evidence of such a plot. The results of its investigations were contained in a special report, in which the jury attributed responsibility for the rumors to a private detective who sought to obtain employment for himself through the "fear that would be instilled into the employes of the concerns."

Real Forebodings.

"My son," said the father, impressively, "suppose I should be taken away suddenly, what would become of you?" "Why," said the son, irreverently, "I'd stay here. The question is, What would become of you?"—The Boy Builder.

Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

We're not here long, so let's make our stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well. What a glorious condition to attain, and yet, how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble; others who have pale skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of inside-bathing before breakfast.—Adv.

This,
to you:
PRINCE ALBERT
the national joy smoke

hits the smoke-appetite-spot without a miss! Yes, sir; P. A. cuts out all argument, all question as to how much pleasure you can get out of a pipe or rolled cigarette. The patented process fixes that—and removes bite and parch! You simply need an introduction via a tippy red bag or tidy red tin, then you'll absorb some first-hand facts that certainly will make-you-sit-up-and-take-notice!

Gentlemen, tobacco satisfaction is one of those little things in life that's coming to you if you'll just stay-put-a-spell-and-embrace-it. Prince Albert will supply that satisfaction just as sure as you're

a foot high! We tell you P. A. will exceed the liveliest imaginations of tobacco joy you can hatch. We tell you that its quality, its flavor, aroma and coolness just beat all reckoning. And just add the little old fact that it can't bite, can't parch!

Figure out how a smoke like this will "set" on your palate, sun-up-to-urn-in-time! You go to Prince Albert like it always was your pal—and don't worry about your smoke-past! Let P. A. take care of the future!

R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

Prince Albert is sold everywhere in tippy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidor—and that classy pound crystal-glass humidor with the sponge-moistener top that keeps the tobacco in the finest kind of trim—always!
